

## **ABSTRACT**

This project deals with the 'Courier management'. The system is used for daily activities such as booking, non-delivery, out return, company details and pickup centres. It is very difficult to do this process manually. Hence it is recommended to computerize the process by developing the relative software as the world is turning into information and technology; computerization becomes necessity in all walks of life.

## ACKNOWLEDGMENT

The satisfaction and euphoria that accompany the successful completion of any task would be incomplete without the mention of the people who made it possible, whose constant guidance and encouragement crowned our effort with success.

I express my sincere gratitude to our Principal **Dr.Manjunatha T S**, Jain Institute of Technology for providing facilities.

I wish to place on record my grateful thanks to **Dr.Rakesh L**, Head, Department of Computer Science and Engineering, Jain Institute of Technology, Davangere for providing encouragement and guidance.

We hereby like to thank **Mr.Rohit M. S.**, Asst.,prof,Dept of CSE, on his periodic inspection, time-to-time evaluation of the project and help to bring the project to the present form.

Also we thank the faculty members of the **Computer Science and Engineering** department whose suggestions enabled us to surpass many of the seemingly impossible hurdles.

We also thank our guides and lastly we thank everybody who has directly or indirectly helped us in the course of this project.
